Item 118 of the provisional agenda*
Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency

Budgetary and financial situation of organizations of the United Nations system

Note by the Secretary-General transmitting the statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system (decisions 47/449, 53/459, 57/557 and 57/558)

Summary

The present report on the budgetary and financial situation of organizations of the United Nations system is the only system-wide source of these statistics. Until 1991 the report, in a slightly modified format, was produced by the Advisory Committee on Administrative and Budgetary Questions and included in its annual reports on administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency. Since 1991, six biennial reports have been produced under the auspices of the Administrative Committee on Coordination. This ninth report is the third to be presented by the United Nations System Chief Executives Board for Coordination (CEB). The format and content of the tables have been slightly revised and improved since the last report (A/59/315), following extensive consultations within the Finance and Budget Network of the CEB High-level Committee on Management.

* A/61/150.

1. This is the ninth report of its kind to be presented by the United Nations System Chief Executives Board for Coordination (formerly the Administrative Committee on Coordination).

2. The tables in the report are grouped under the following five subject headings:

(a) Regular resources (table 1);

(b) Extrabudgetary resources (tables 2-2A);

(c) Total expenditure (table 3);

(d) Assessed contributions (tables 4-7);

(e) Working capital funds (table 8).

(a) Regular resources

Table 1. Approved regular budgets (1996-2007). This table shows, for each of the organizations appearing in the report that has a regular budget and for each of the years 1996 to 2007, the amounts of the estimated expenditure actually approved under regular budgets, plus any approved supplementary estimates, net of staff assessment. In this context, "regular budgets" are broadly interpreted as "regular resources", regardless of a corresponding assessment in the legal sense. Figures for biennial budgets are divided into two equal annual amounts.

(b) Extrabudgetary resources

Table 2. Extrabudgetary resources: summary by organization (2002-2007). This table covers contributions (actual and projected) provided outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation and other non-regular resources. It also contains the value of contributions in kind.

Table 2A. Extrabudgetary resources: funds received (2002-2005). This table shows voluntary contributions in cash and in kind received by each of the same organizations as in table 2 in the past two bienniums. Data are presented in three sections: A. receipts from States, B. receipts from other contributors, and C. receipts from all contributors.

(c) Total expenditure

Table 3. Total expenditure. This table shows expenditure (actual and projected, 2002-2007) against regular budget resources (table 1) and extrabudgetary resources (table 2), which include trust funds, technical cooperation, and other non-regular resources. Also included is expenditure against resources in connection to which the organization is the executing or implementing agency. Expenditure in kind is indicated separately. Data relating to extrabudgetary peacekeeping operations are excluded. Reported amounts are extracted from the audited financial statements of the corresponding period.

(d) Assessed contributions

Table 4. Assessed contributions (1996-2007). This table shows the total assessments payable by organizations' members under approved regular budgets. Assessed

contributions relating to extrabudgetary activities, such as certain peacekeeping operations of the United Nations, are not included.

Table 5. Percentage assessments (2006-2007). This table shows, for each of the Members of the organizations in table 4, the percentage amounts of the assessed contributions payable under approved regular budgets in 2006 and 2007.

Table 6. Assessments voted and received (2004-2005). This table shows, for each of the members of the organizations in the preceding tables, the assessments payable under approved regular budgets and the amounts collected in relation to current assessments and arrears in each of the years 2004 and 2005. Please note that in prior reports, data were provided covering United Nations peacekeeping operations, but have been eliminated from this table. Peacekeeping data may be found in the monthly reports of the Secretariat on the status of contributions (ST/ADM/SER.B/...).

Table 7. Collection of assessed contributions (2004-2005). This table shows, for each of the organizations in the preceding tables, the percentage of the current year's assessed contributions under approved regular budgets that was collected at 30 June and at 30 September of the two most recent years for which such data are available (2004 and 2005). The table also shows, by organization, the total amount of all assessed contributions under approved regular budgets that was outstanding at 30 September of the same two years.

(c) Working capital funds

Table 8. Working capital funds. This table shows, for each of the organizations in the preceding tables, the level of working capital funds in relation to the level of approved regular budget estimates for the period 2006-2007.

3. The footnotes accompanying the tables in several cases not only clarify individual figures but also provide general explanations relevant to the scope and interpretation of the data presented.

Notes to table 1

(a) This table shows the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates, net of staff assessment. No adjustments are made in the figures in this context, the term "regular budgets" is broadly interpreted as "regular resources" regardless of a corresponding "assessment" in the legal sense. Where the estimates approved make provision for an amount for an undistributed reserve, it is excluded from the figures, so that the comparisons relate to effective working budgets. Estimated expenditure for the support of extrabudgetary activities is included where and to the extent that it is integrated into the regular budget. Estimated budgetary reimbursements to accounts drawn upon to finance expenditure under the budget or supplementary authorizations is reported in the period of reimbursement. Figures for biennial budgets are divided into two equal annual amounts; supplementary estimates are reported according to the years to which they relate.

Where budgets are denominated in a currency other than the United States dollar, the amounts reported are translated into the dollar at the United Nations operational rate of exchange at the end of each year, except for the 1996 and 1997 figures, which have been translated at the December 1997 rate. Rates used are as follows:

(i) Swiss francs to the dollar:

- For UPU: 1996-1997, 1.16; 1998-1999, 1.42; 2000, 1.60; 2002-2003, 1.68; United Nations rate for December 2001; 2004-2005, 1.30; 2006-2007, 1.21.
- For ITU and WMO: 1996-1997, 1.16; 1998-1999, 1.42; 2000, 1.59; 2001-2002, 1.65; 2004-2005, 1.30; 2006-2007, 1.31.
- For WIPO: 1996, 1.29; 1997, 1.42; 1998, 1.41; 1999, 1.59; 2000, 1.76; 2001, 1.68; 2002, 1.49; 2003, 1.30; 2004, 1.14; 2005-2007, 1.31.
- For ITC: 1998, 1.41; 1999, 1.59; 2000, 1.76; 2001, 1.68; 2002, 1.39; 2003, 1.25; 2004, 1.13; 2005, 131.
- For IOM: 2006 Exchange rate 1.31 (Jan 2006).

(ii) Dollars to pounds sterling (IMO): 1996-1997, 1.54; 1998-1999, 1.61; 2000, 1.67; 2001-2002, 1.41; 2004-2005, 1.67; 2006-2007, 1.75.

(iii) Dollars to Austrian schillings/euros (UNIDO): Calculated at the following Austrian schilling (ATS) dollar exchange rates under the split-assessment system (US dollar and ATS) introduced in 1988 up to 2001 and the single currency in euros introduced in 2002: 1996, ATS 10.50; 1997, ATS 12.00; 1998, ATS 12.40; 1999, ATS 12.90; 2000, ATS 14.8635; 2001, ATS 15.3642; 2002-2003, €1.123; 2004-2005, 0.801. Subject to variation according to operational exchange rates between the two currencies.

(iv) Euros to the dollar (UNWTO): 2004-2005, 0.801.

(b) UNDP — regular budgets refer to untied voluntary contributions to UNDP and exclude trust funds, cost sharing contributions or any other extrabudgetary contributions.

(c) The IFAD budget is approved annually, therefore no figure is provided for 2007. A significant part of the underlying expenditures is incurred in euros. These amounts are translated at the budget exchange rate set at the beginning of the year. Figures provided include the administrative budget for IFAD and its now independent Office of Evaluation, one-time costs and part of the costs relating to the programme of work.

(d) Net of reimbursable expenditure.

(e) Calculated at the following Austrian schilling-dollar exchange rates (Euro-dollar exchange rates for 2002-2007) under the split appropriation and assessment system introduced in 1986: 1996-2001, ATS 12.70; 2002-2005, €0.9229; 2006-2007, €1.00.

Subject to variation according to operational exchange rates between the two currencies.

(f) Subject to approval by the General Conference.

(g) UNWTO (Tourism) introduced a single currency budget in euros in 2002-2003, which was converted at the January 2000-September 2001 average rate of exchange of US$ 1-€1.0976. In 2004-2005: 2004 € 0.737); 2005 (€ 0.845).

(h) The Kyoto Protocol entered into force on 16 February 2005. The part of the approved core budget relating to the Kyoto Protocol interim allocation was pro-rated for 10.5 months in 2005. The programme budget for 2006-2007 is apportioned at 63.2 per cent for the Convention and at 36.8 per cent for the Kyoto Protocol.

Per the Headquarters Agreement, the Government of Germany makes an annual fixed voluntary contribution of € 766,938 (formerly DM 1,500,000) to the core budget of UNFCCC, except in 1996 because the secretariat was still located in Geneva at that time. The contribution is converted into US dollars at the United Nations exchange rate prevailing at the date of deposit.

Notes to table 2

(a) This table covers contributions provided outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation and other non-regular resources. It also contains the value of contributions in kind when these are included as income in organizations' financial statements (see relevant notes). Contributions received in currencies other than United States dollars should be translated into dollars at the exchange rate judged most appropriate by the organizations concerned.

(b) Refers to peacekeeping operations, and excludes contributions for office space made under status-of-forces agreements.

(c) Not available.

(d) Income is total contributions received, excluding extrabudgetary in kind contributions.

(e) Includes annual approved allocation from the printing fund towards the IMO integrated technical cooperation programme.

(f) Excluding funding received through inter-organization arrangements: 2002, $10,543,600; 2003, $7,744,600; 2004, $7,544,100; 2005, $6,429,500. Projections for 2006: $5,536,838 and 2007, $5,536,838.

(g) Contributions in kind are not included as income in IAEA financial statements and are reported in an annex of the Agency's accounts document. Meaningful projections of extrabudgetary resources for 2006 and 2007 cannot be made.

(h) The extrabudgetary resources include a fixed amount annually of €1,789,522 (equal to DM 3,500,000) as agreed under the Headquarters Agreement with the Government of Germany. This amount is converted into US dollars at the United Nations exchange rate prevailing on the date of deposit.

Section A contains contributions from States/Areas, Section B, the total contributions from other contributors, Section C, the total of all contributions. Contributions received in currencies other than United States dollars should be translated into dollars at the exchange rate judged most appropriate by the organizations concerned.

(b) Figures include voluntary contributions to the United Nations Peacekeeping Force in Cyprus, United Nations Iraq-Kuwait Observation Mission and other peacekeeping operations.

(c) Totals include $15.1 million and $17.0 million as contributions in kind for 2002 and 2003, respectively, and $19.9 million and $15.5 million for 2004 and 2005, respectively.

(d) Includes $1.9 million, $1.2 million, $1.4 million and $6.6 million as contributions in kind for 2002, 2003, 2004 and 2005, respectively. Sources of funds: annual budget, supplementary budgets and Junior Professional Officers.

Notes to table 3

(a) This table shows expenditure against regular budget resources (table 1) and extrabudgetary resources (table 2), which include trust funds, technical cooperation and other non-regular resources. Also included are expenditure against resources in connection to which the organization is executing or implementing agency. Expenditure in kind is indicated separately. Reported amounts are extracted from the audited financial statements.

The significant value of programme expenditure incurred by executing or implementing agencies on behalf of the funding organization cannot be isolated. Amounts should therefore be indicated as appearing in the total expenditure line of the financial statements, without further manipulation. Any departure from the financial statements should be explained in a note.

(b) Excludes peacekeeping operations.

(c) Not available.

(d) RB = Regular resources; XB = reintegration support scheme plus other resources and funds.

(e) Total expenditure relating to operational expenses, that is, excluding grants, heavily indebted poor countries and loan allowances, fair value and After-Service Medical Coverage charges. Total expenditures relate to IFAD and all supplementary funds included within the consolidated financial statements. RB relates to IFAD and includes Italian Government expenditures which are fully reimbursed multi-year budgetary expenditures as well as one-time costs and investment-related expenditures.

(f) Regular budget actual figures in euro converted to US dollars at annual United Nations rate of exchange applicable for the respective years.

(g) The above expenditure figures represent the amounts as per audited financial statements. Expenditures included those incurred in 2003 against unobligated balances of 2002 appropriations, and those incurred in 2005 against unobligated balances of 2004 appropriations.

Please note that effective 1 January 2006, the functional currency of IAEA for the regular budget is the euro.

Projected 2006 and 2007 figures represent the IAEA regular budget in euro at an exchange rate of 1.00 euro to 1.00 US dollar.

Projected extrabudgetary figures for 2006 and 2007 includes the Technical Cooperation Fund.

(h) UNWTO introduced a single currency budget in euros in 2002-2003, which was converted at the January 2000-September 2001 average rate of exchange of US$ 1 = euro 1.0976. In 2004-2005: 2004 (euro 0.737); 2005 (euro 0.845).

(i) UNODC approved regular budget resources come from United Nations Headquarters and are therefore not shown separately.

Notes to table 4

(a) This table shows the amounts of assessed contributions actually payable by Governments to finance approved regular budgets and any supplementary estimates. No other financing is reported. Where organizations have an undistributed reserve, the corresponding amount of contributions is excluded from the figures. The effects of the operation of provisions concerning tax equalization funds are not taken into account. Except where stated otherwise, assessments under budgets denominated in currencies other than United States dollars are translated into dollars on the same basis as the budget appropriations (see table 1, footnote (a)). Differences between the amounts shown in this table and the total amounts shown in table 6 relate mainly to amounts actually assessed for tax equalization funds (which are included in table 6) and to contributions assessed on a Member State that ceased to exist. In the case of IAEA, the difference relates to the valuation of Austrian schilling contributions in table 6.

(b) Provisional.

(c) Contributions are payable in Swiss francs under the assessment system introduced with effect from 1990. The rates involved (Swiss francs to the dollar) are: 1996-1997, 1.16; 1998-1999, 1.46; 2000-2001, 1.53; 2002-2003, 1.77; 2004-2005, 1.34; 2006-2007, 1.25.

(d) In 2004 and 2005, assessments are billed in US dollars and euros under split-assessment arrangements, and therefore the amount in the table is the consolidated amount.

(e) The portion of contributions payable in French francs/euros under the split-assessment system introduced in 1988 is calculated at the following French franc/euro — dollar exchange rates: 1996-1999, FF 5.70; 2000-2001, FF 5.70/€ 0.869; 2002-2003, € 0.869; 2004-2005, € 0.869.

(f) Contributions are payable in Swiss francs. The rates used are the same as under table 1.

(g) Contributions are payable in Swiss francs; converted to US dollars: 2004-2005, 1.30; 2006-2007, 1.31.

(h) Contributions are payable in UK pounds and converted using the budget exchange rate of £1 = US$ 1.75.

(i) IFAD receives contributions from Member States under replenishments, which each cover a 3-year period for its regular programme of work. Contributions recorded in 1996 and 1997 reflect one third each of the third replenishment regular contributions; those recorded in 1998-2000 include one third each of the fourth replenishment; 2001-2003 include one third each year of the fifth replenishment; 2004-2006 includes one third each of the sixth replenishment; 2007 includes one third of pledges received to date at the agreed replenishment 7 exchange rate. Figures from 1996 to 2005 include total cash receipts, promissory notes and receivables as at 31 December 2005. Promissory notes and receivables have been translated at the exchange rate prevailing at 31 December 2005. Cash receipts have been translated using the exchange rate prevailing on date of receipt. 2007 will fall under the seventh replenishment and is based on provisional figures.

(j) Contributions are calculated at the following Austrian schilling to dollar exchange rates under the split-assessment system introduced in 1988 up to 2001 and the single currency in euros introduced in 2002: 1996, S 10.50; 1997, S 12.00; 1998, S 12.46; 1999, S 12.90; 2000, S 14.8635; 2001, S 15.3642; 2002-2003, euros 1.123; 2004-2005 assessments are based on the average United Nations exchange rate during the respective years. 2005 assessment includes supplementary assessment approved in December 2005 converted at December rate of exchange. 2006-2007 — January 2006 rate of 0.845. The current figure is subject to variation according to operational exchange rates between the two currencies.

(k) Contributions are calculated at the following Austrian schilling to dollar exchange rates (euro-US dollar exchange rates for 2002-2007) under the split-appropriation and assessment system introduced in 1986: 1996-2001, S 12.70; 2002-2005, € 0.9229; 2006-2007, € 1.00. Notes to table 5

(a) A blank opposite the name of a country/area indicates that it is not a contributor or other entity to the organization under the scale of assessments.

(b) Percentage relates to 2006 assessments.

(c) See note (1) in table 4 for basis of data recorded.

(d) The rates shown are the scale rates for 2006 as approved by the General Conference in September 2005. Scale rates for 2007 will only be approved by the General Conference in September 2006.

(e) The schedules show the actual percentage assessments for 2006. The 2007 assessments will not be calculated until September 2006 and therefore are not included in this report.

(f) The UNFCCC core budget is apportioned at 63.2 per cent under the Convention and 36.8 per cent under the Kyoto Protocol. The Convention has 189 member parties and the Kyoto Protocol had 163 member parties as at 15 May 2006. The number of the member parties to the Kyoto Protocol is expected to rise further during the biennium. The percentage assessment relates to 2006 only and will be reviewed for 2007 when the new scale of assessments is published by the GA.

(g) Puerto Rico is an associate member of WHO and UNWTO (Tourism). Aruba, Hong Kong-China, Macao-China, Netherlands Antilles participate in UNWTO as associate members. Madeira and the Flemish Community of Belgium are also associate members. Cayman Islands is associate member of UNESCO. The Faroe Islands, Hong Kong and Macao are associate members of IMO.

(h) The European Union as an entity is a party to UNFCCC in its own right.

(i) In accordance with regulation 3.8 of the Financial Regulations of the United Nations, States that are not Members of the United Nations but that participate in certain of its activities shall be called upon to contribute towards the expenses of the Organization.

(j) Figures for the Russian Federation are not included in the table since it rejoined in April 2006, and the Finance Committee has still to decide how FAO will treat its assessments.

Notes to table 6

(a) As of 31 December 2004 for year 2004 and as of 31 December 2005 for year 2005. Differences between the amounts shown in this table and the total amounts shown in table 4 relate mainly to amounts actually assessed for tax equalization funds (which are included in this table) and to contributions assessed on a member State that ceased to exist.

(b) A blank opposite the name of the country/area indicates that it is not a contributor to that organization under the scale of assessments.

(c) Regular budget only. Data covering United Nations peacekeeping are contained in the monthly reports on status of contributions (ST/ADM/SER.B) issued by the Secretariat.

(d) The original assessed contribution for the 2004-2005 biennium of SwF 709,650,600 ($529,590,000) was adjusted to SwF 709,658,485 ($529,595,884) following the admission of Timor-Leste (SwF 4,969) and Samoa (SwF 2,916) on 19 August 2003 and 7 March 2005, respectively.

(e) Original amounts in SwF are translated into USD at the rate of 1.25 for 2004 and 1.24 for 2005 (yearly average of UN official rates).

(f) Contributions in UK pounds are converted into US dollars using the annual average United Nations operational rate for the relevant year, i.e. 2004 = $1.821; 2005 = $1.825.

(g) Contributions are in SwF. The rates of the US dollar used are the same as in table 1. Advance payments received as of end 2005 (thousands of SwF): for 2007 and following years: Angola 42, Bahamas 1, Cameroon 7, Ecuador 7, Honduras 5.

(h) See note (i) in table 4 for basis of data provided. Receipt of current year assessments relate to cash received for replenishment 6, converted to US dollars at the exchange rate prevailing on the date of receipt. Receipt of prior year assessments relate to amounts received in 2004 and 2005 relating to previous replenishments, at the exchange rate prevailing on the date of receipt.

(i) Timor-Leste is a member of UNIDO. Supplementary assessments of US$ 3,059,361 for 2004-2005 are not included in the figures as the Member States were invoiced only in 2006. The average annual United Nations rate of exchange has been used to convert the euro to the US dollar.

(j) The assessment amounts shown are the assessments for 2006, approved by the General Conference in September 2005. The assessment amounts for 2007 will only be approved by the General Conference in September 2006 and are not included. All figures shown are based on the United Nations rate of exchange in effect on 30 April 2006 of € 0.827 for US$ 1.

(k) Australia returned to the organization in October 2004. The Australian contribution for the period 2004-2005 has been considered sundry income. 2004-2005 UNWTO assessments do not include those of UNWTO affiliate members.

(l) The difference between amounts shown in this table and the total amounts shown in table 4 relate to:

(i) The additional contribution of US$ 35,275 from Turkey as new party in 2004, which was adjusted in 2005;

(ii) The deduction in the contribution of the United States (see note (m));

(iii) Rounding differences in contributions;

(iv) Entry into force of the Kyoto Protocol on 16 February 2005.

(m) The United States of America paid its contribution to the core budget for the biennium 2004-2005 at the level of the UNFCCC indicative scale for the United States, minus its proportionate share of the preparatory activities relating to the entry into force of the Kyoto Protocol, i.e. 9.91 per cent (deduction of US$ 341,373 for 2004 and US$ 336,359 for 2005).

(n) The European Union is a party to UNFCCC in its own right.

(o) Assessed contributions for 2004 and 2005 in SwF, converted to US$ at an exchange rate of 1.31 at January 2006.

(p) Puerto Rico is an associate member of WHO and UNWTO (Tourism). Aruba, Hong Kong-China, Macao-China and Netherlands Antilles participate in UNWTO as associate members. Madeira and the Flemish Community of Belgium are also associate members.

(q) Timor-Leste is a member of UNESCO. Cayman Islands is an associate member of UNESCO. Brunei Darussalam joined UNESCO in 2005; its contributions were added to normal 2005 assessed contributions.

(r) The Holy See is not a State Member of the United Nations. Its contributions as non-member State are treated as miscellaneous income.
